linkedin.com/in/tleanne/

**Frontend Developer** specializing in building **responsive, user-friendly web applications** using **HTML, CSS, JavaScript, React, Next.js, and Python**. Experienced in crafting dynamic UIs, optimizing performance, and implementing **secure coding practices**. Skilled in **GitHub, Tailwind CSS, Framer Motion, and REST APIs**, with a strong focus on delivering **clean, efficient code** and enhancing **user experiences**.

Beyond frontend, I bring expertise in **cybersecurity**, focusing on **vulnerability management** and **threat detection**. This unique combination allows me to prioritize **secure coding practices** while delivering **engaging user experiences**.

## EXPERIENCE

**Company: Log(N) Pacific**                                     11/30/2024 - Present
**Title:** CyberSecurity Support Engineer (Vulnerability Management & SecOps)
Vulnerability Management:
- Conducted vulnerability scans, provided detailed reports, and implemented PowerShell-based remediations, contributing to a 100% reduction in critical, 90% in high, and 76% in medium vulnerabilities for the server team.
- Performed vulnerability assessments and risk prioritization using Tenable across Windows and Linux environments.
- Executed secure configurations and compliance audits (DISA STIG) with Tenable to meet industry standards.
- Automated remediation processes and STIG implementations using PowerShell to address critical vulnerabilities.
- Deep understanding of the "soft" side of Vulnerability Management: rapport, trust, transparency, and business need.

Security Operations:
- Performed threat hunting with EDR, detecting IoCs from brute force attacks, data exfiltration, and ransomware.
- Designed, tested, and published advanced threat hunting scenarios for incident response tabletop exercises
- Developed custom detection rules in Microsoft Defender for Endpoint to automate isolation and investigation of compromised systems.
- Reduced brute force incidents by 100% by implementing inbound NSG/firewall rules to limit Internet exposure.
- Created Microsoft Sentinel dashboards to monitor logon failures and malicious traffic using threat intelligence.
- Experienced with KQL (similar to SQL/SPL) which I used to query logs within the SIEM and EDR platform.

**Company: DaySmart**                                             Oct. 2023 - Current
**Title:** Software Support Specialist
- Delivered software support, diagnosing and resolving technical issues efficiently to minimize client downtime.
- Guided users through complex troubleshooting processes, providing clear and effective solutions.
- Documented common issues and resolutions to enhance the knowledge base and improve service delivery.
- Collaborated with development teams to report bugs and suggest software improvements based on user feedback.

## PROJECTS

Fine Dining Restaurant

**Platforms and Technology Used:** HTML, CSS, React Js

# CERTIFICATIONS
Junior Frontend Developer - SheCodes
Cyber Security SOC Analyst (LeveldCareers) Feb. 2025
CompTIA Security+ (Expected 4/2025)
CISSP (Expected 2025)

# EDUCATION
B.S. Information Technology                                    Kaplan University, (2016)

# ADDITIONAL SKILLS AND TECHNOLOGIES
**Frontend Development:**
 HTML, CSS, JavaScript, React.js, **Next.js**, **Node.js**, Python, MongoDB, Bootstrap, Flexbox, Tailwind CSS, Framer Motion, SEO, API Integration, Responsiveness

**Tools & Technologies:**
 Git, GitHub, Sentry, PowerShell, BASH, Microsoft Defender (EDR), Microsoft Sentinel (SIEM), Azure VMs

**Secure Development & Cybersecurity:**
Secure Coding (OWASP Top 10), Vulnerability Management (CVE/CWE), Risk Prioritization, Endpoint Detection & Response (EDR), Firewall/NSG Configuration

**Compliance & Frameworks:**
 NIST Cybersecurity Framework, PCI-DSS, GDPR, HIPAA
